

Drill Information

- 1) We will use both drill charts and coordinate sheets this year. All band members will be expected to have both at rehearsals. You may print them in any size or configuration that works for you, but the information contained on them will need to be accessible.
- 2) PDFs of drill charts will be available in the Members area of the MK website.
- 3) A pdf of coordinate sheets will be available in the Members area of the MK website. There will be one pdf containing the coordinate sheets for the entire band for each piece or section of a show. Open the pdf and scroll down until you see your coordinate sheet. Print that single page.
- 4) The following codes are being used on the drill charts:

F – piccolos	o – snares
K – clarinets	Q - tenors
X – saxophones (alto & tenor)	O – bass drums
C – trumpets	() - cymbals
M – mellophones	P - guard
T – trombones	* - dance team
E – baritones	stars - majorettes
B – sousaphones	

The same codes are used on coordinate sheets with the following exceptions:

' – snare drums	w - majorettes
z – cymbals	

- 5) Each band member will be assigned a number to go along with the code above. For example, mellophone player John Doe may be identified on the field as M3. These numbers will be assigned by the Section Coordinators and sent to you over the summer.
- 6) A 3D video animation of the drill will be available in the Members area of the MK website.
- 7) Band members will also have the ability to download for free and use the iPAS software from Pyware in order to study the drill. Instructions follow.

iPAS Instructions

- 1) Go to www.pyware.com.
- 2) In the top menu, select "3D." In the drop down menu, select "Student Viewer."
- 3) Download the software for the appropriate operating system you are using.
- 4) Follow the on-screen instructions for downloading and setting up. Please note, two versions of this software exist – a free version and a "full" version. You will only need the free version. You may disregard any prompts asking you to purchase the software.
- 5) Once you have installed the software, launch iPAS.
- 6) You will be prompted again to purchase the full version. Select "Skip for Now" on the left side of the screen.
- 7) When prompted for account ID information, use the following:
 - Account Name: University of Central Florida
 - Account ID: 37974
 - Group Name: *Leave blank*
 - Group Password: *Leave blank*
- 8) You will be asked to register. You can select "Register Later."
- 9) You will be asked for your Cast Member name. We do not have these assigned. You may enter your name, select your instrument, and enter your e-mail address. You do not need to complete the iPAS Online School Account.
- 10) Select your name and Log In.
- 11) Select "Next" to Download files.
- 12) Click "Connect"
- 13) Select the account from the list.
- 14) Select "Open"
- 15) Sign on as "Anonymous Guest"
- 16) Select the files you would like to access and download.
- 17) After downloading, select one of the files and click "Next."
- 18) Select "I want to be a Guest Performer."
- 19) You can place the red target on any drill position. If you know your position, select it. That position will remain highlighted for quick reference.
- 20) Select "Drill Explorer."
- 21) Using the tools on the left, you will be to animate the drill to study paths and formations.
